

VIPLAST C-900 ACG

EDIBLE NATURAL COATING TO AVOID
THE WHITE VEIL ON BONELESS HAMS

CHARACTERISTICS

- Viscosity (20°C): 150cps.
- Natural finish, slightly matt finish.
- Optimal regulation of the ham curing process.
- Prevents the formation of the "white veil" on the ham.
- Compliant with regulations:
 - EU: Regulation (EU) No. 1333/2008 and subsequent amendments No. 1129/2011 and 1130/2011

ADVANTAGES

- 100% edible
- Does not alter the smell or natural taste of the treated piece
- Immersion application
