

WATER BASED RELEASE AGENTS FOR FIBREBOARD

CONCENTROL LX WP-MDF LINE

FEATURES & BENEFITS

- **Extremely high release effect** and **perfect wetting** even at high dilution levels
- **Consistent release performance** no matter what resin formulation you use
- **Improves the finish quality** of the board surface
- Allows **trouble-free painting, dyeing, varnishing and sanding of the boards**
- **Silicon free** product
- **Improves sanding efficiency**, sanding dust will always remain loose
- **Safe for all temperatures** and production methods
- **Economical** as it works perfect at high dilution ratios (1% emulsion)
- The **steel belt** of your continuous press **stays clean!**
- **Improves glue adhesion** and **reduction of paint or varnish** in subsequent works without increase in dry-time

• With products from our CONCENTROL LX WP-MDF line you will find the perfect Release Agent for your Fibreboard, MDF or HDF production no matter which resin formulation you are using
