

PROTILAT

NATURAL EDIBLE COATINGS FOR SAUSAGES

PROPERTIES

- Composition based on milk proteins
- Natural finish
- Regulation of the cured meat maturation process
- Protects against molds and yeasts
- Complies with Regulation (EU) No. 1333/2008

ADVANTAGES

- **100% edible together with the sausage**
- **Excellent fixation** of spices in any casing and sausage caliber
- Does not require declaration of E numbers on the food label, only indicate that it contains milk proteins
- **Weak rehydration**, recommended for vacuum-packed sausage pieces
