

# RELEASE AGENTS FOR RIGID POLYURETHANE FOAM

Rigid polyurethane foams, known for their **exceptional insulating properties**, are used in a wide range of applications:

- Insulation sector
- Automobile sector

The **CONCENTROL® range** provides a specific and efficient solution for all types of polyurethane panels.

- Solvent-based mold release agents
- Traditional water-based mold release agents
- Concentrated mold release agents
- Concentrated mold release agents to dilute
- Customized solutions
